Cut Flowers -:- Potted Plants

Spring Blossoming Bulbs

Bulbs are most satisfactory, for when planted in common garden soil they yield flowers of rich and gorgeous colors with little care and cultivation.

Plant any time between September 1st and freezing time. Plant Tulips 4 inches deep and 4 to 6 inches apart.

Plant Narcissi 5 inches deep and 5 to 6 inches apart.

Bulbs should be lifted every second or third year, divided and reset, as they increase rapidly.

Price per 100 is seven times dozen rate.

Early Spring Tulips

Blossoming time for these tulips is during the month of April. They are particularly good for window boxes, as the shorter stems and brilliant colors make possible a good mass effect.

	Doz.
ARTUS, scarlet	\$.60
BELLE ALLIANCE, scarlet.....	.75
DUCHESS OF PARMA, terra cotta, yellow edge.....	.80
